CAREER OBJECTIVE

Motivated MCA graduate with a strong foundation in computer science and software development. Passionate about applying technical skills to real-world projects and contributing to organizational growth. Quick learner with strong problem-solving abilities and a keen interest in emerging technologies.

PROJECTS

QuickCart- Mini E-commerce App

Tech Stack : React, Redux Toolkit, React-Router, Rest API

- Developed QuickCart, a responsive E-commerce web application using React.js, Bootstrap, Redux, and React Router DOM for efficient state management and seamless navigation.
- Integrated a dummy REST API to fetch and display products on the homepage, implementing dynamic cart functionality with real-time updates.

Library Management System

Tech Stack: MongoDB, Express.js, React.js, Node.js, Rest API

- Developed and deployed a Library Management System using the MERN stack to manage author and book records efficiently.
- Implemented relational data handling by linking books to authors via unique author IDs, ensuring structured CRUD operations and scalable backend architecture.
